

# STI Beacon & Sounder Cages

STI-9614

STI-9665

## PRODUCT OVERVIEW

These cages are an excellent way to help protect your beacons and sounders against both vandalism and accidental damage. The newest addition to the STI Wire Guard Range, these Stoppers were created in response to multiple requests from STI customers. They are easy to install with all screws and anchors provided. Constructed from corrosion resistant plastic coated, heavy-duty galvanized steel rod, they can cope with the severest of abuse from vandalism and accidental damage, and are for use internally and externally.

## HOW IT WORKS

A simple 4 fixing point installation makes them easy to mount, and removal is simple for servicing the protected device. They are highly recommended for areas where abuse is severe or it is imperative sounders and beacons continue to operate.

## KEY FEATURES

### General Information

- Help to protect the operation of beacons and sounders from theft and vandalism.
- Three year guarantee against breakage in normal use.

### Design

- These steel cages are designed to protect beacons and sounders from vandalism and misuse.
- Designed so there is no interference with the operation of the protected device.

### Construction

- Constructed from plastic coated, heavy-duty galvanized steel rod.

### Installation

- A simple 4 fixing point installation can retrofit over existing devices.
- Fast and easy installation.
- Simple removal for servicing of devices.

### Options

- Where additional security is required, tamper resistant screws and matching bits are available.
