

With a low profile sleek design, the Identifire Tritone sounder is ideal for standard installations and where aesthetics are an important consideration.

Suitable for conventional sounder circuits, notification alarm circuits and 2-Wire alarm systems. Tritone's low operating current means it can easily be interfaced onto Analogue Addressable fire alarm systems with a suitable output module.

As with the wider Identifire range, the product is designed to fit any recessed single gang box, giving a flush finish or surface mounted using the Identifire surface box.

Body colours available are Red and White.

In common with all other Identifire products, our Tritone Sounder Unit can be customised with your choice of logo and text in any language\*

## Specification

Operating Voltage	20 - 28V dc
Current Consumption	6 mA at 24V dc
Weight	0.06 kg
Housing Material	Fire rated ABS
Operating Temperature	-5°C to +50°C
Colour	Red/White
Selectable Output	High: 92-96 dB(A)/ Low: 86-90 dB(A)

**Flush Mounted**

**Surface Mounted**

## Part Numbers

10-1010RFX-S:	Identifire Tritone Sounder Flush Mount, Red
10-1010RSX-S:	Identifire Tritone Sounder Surface Mount, Red
10-1010WFX-S:	Identifire Tritone Sounder Flush Mount, White
10-1010WSX-S:	Identifire Tritone Sounder Surface Mount, White

## Spares & Accessories

10-8010RXX:	Identifire Back Box, Red
10-8010WXX:	Identifire Back Box, White

# IDENTIFIRE

## Features

- / Sound output - 96 dB(A) @1m
- / Aesthetically appealing design
- / Low current - average 6 mA
- / No special wiring, easily retro-fitted
- / Features 4 x 20mm knockouts for surface and glanded entry
- / Sounder approved by UL to EN 54 Part 3

## Approvals

**2 Wire  
Compatible**

Identifire product is compatible with 2 wire fire alarm systems.  
 List of compatible control panels available
