With one of the widest ranges available on the market today, Commander® is firmly established as a true market leader. Time has proved these portable fire extinguishers as a dependable choice for almost any situation, and reliable performance is guaranteed.

COMMANDER®

PRE-FILLED LOW FREEZE ADDITIVE FIRE EXTINGUISHER

As the cold weather sets in, water fire extinguishers in outdoor settings are at risk of their contents freezing – rendering them useless in the event of a fire. An anti-freeze extinguisher has an additive that means it can withstand low temperatures.

To help support you and your customers through the winter months, we can supply our Commander Fire Extinguisher prefilled with anti-freeze ready for you.
